

AGNES SRI RAHAYU SIHOMBING

I am an active student at the University of North Sumatra currently taking my 2nd semester majoring in Information Technology. I have an interest in the web field. Currently, I'm diving into HTML, CSS, and JavaScript, as well as starting to learn PHP for further web development. Even though I am still in the learning stage, I continue to try to understand basic concepts and hone my skills by making small projects. I am able to manage time well.
